Dear Jim:

We are transmitting herewith 16 copies of "Program for Determining Panoramic Photo Coverage". This is the first report on programming on our contract BB-375. Fifteen copies are to be forwarded to Major Anderson and one copy is to be forwarded to Major Bealey.

These are being sent to you for transmittal by a courier to avoid possible security violation. On Page 10 of the report, the bottom of the page shows a sketch with a description which may possibly be of a classified nature. It is understood that after your review of this report that if you find it should be classified, you will affix the necessary stamp and advise me so that I may do the same for those that I am holding.

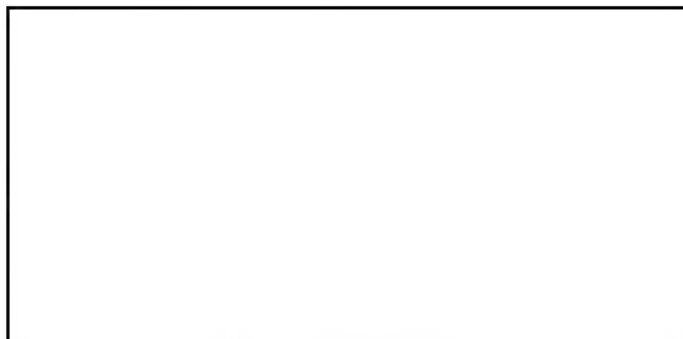

Very truly yours,

STATINTL
